Calculator with specialization in insulation and fire protection (m/f/d) – Berlin

With 230 permanent employees and over 220 freelancers, we have been supporting our customers for many years in the planning, manufacture, installation and maintenance of building equipment and supplying solutions of high German quality for construction projects throughout Europe.

TLC is undergoing a strong growth process and Denmark is one of our strategic growth areas.

If you have an entrepreneurial mindset, enjoy taking on responsibility and want to play an active role in shaping a modern working environment, then you've come to the right place!

We are looking for an experienced full-time **estimator specializing in insulation and fire protection (m/f/d)** to start as soon as possible.

This is what you can expect from us:

- **Responsibility & variety:** An exciting role with creative freedom in a dynamic company with a real winner's mentality.
- **Attractive framework conditions:** permanent employment in a modern, international company.
- **A work culture that inspires:** open communication through our own employee app, flat hierarchies and collegial cooperation at eye level paired with regular company events.
- **Top equipment & fair remuneration:** company car and smartphone for our colleagues in the field, attractive salary and company health insurance.
- **Further development included:** Professional and personal development as well as the option of working on exciting and future-oriented projects throughout Germany.

What you can expect from us:

- Preparation of quotation, order and supplementary calculations for building services, specializing in the areas of fire protection and insulation.
- Cost estimates/quantity calculations and bid preparation for complex bidding procedures (functional tenders and lump sums).
- Cross-location cooperation and collaboration in the acquisition of construction contracts, recognition of opportunities and risks in the processing of offers from a commercial, contractual and technical perspective.
- Merging the technical, contractual, commercial and calculative findings of the offer processing.
- Accompaniment of larger construction projects to support the project management in the preparation and preparation of supplementary offers in the course of construction.

What you bring with you:
