Electronics technician for building services engineering (m/f/d)

Description

Electronics technician for building services engineering (m/f/d)

Location: Klipphausen

Our team is looking for an **electronics technician for building technology (m/f/d)** to start as soon as possible . As part of our team, you will work on exciting construction projects and support our customers in the implementation of construction projects.

Your future tasks:

- Maintenance work and repairs to technical building equipment and systems in the areas of ventilation and air conditioning technology
- Ensuring uninterrupted operation (e.g. electrotechnical systems in the field of I&C and BMS)
- Checking and operating the technical supply systems of the building services trades
- Laying cables and carrying out connection work
- Troubleshooting with electronic measuring devices
- Implement circuit diagrams in their function
- Documentation of the tasks performed

What we offer you:

- Company car
- Company cell phone
- Secure job in a family environment
- Attractive remuneration
- Continuous further training opportunities
- Exciting projects throughout Europe
- Company events
- Company health insurance

Your strengths:

- Completed training as an electronics technician or comparable training with at least 2 years of professional experience
- Study as an electronics technician in building services engineering
- Competent handling of Microsoft Office
- Ability to work in a team and strong communication skills
- Good knowledge of German
- Driving license class BE (formerly class 3)
- Willingness for partial assembly
