## Employee for the construction management department (m/f/d) – Klipphausen

With 230 permanent employees and over 220 freelancers, we have been supporting our customers for many years in the planning, manufacture, installation and maintenance of building equipment and supplying solutions of high German quality for construction projects throughout Europe.

TLC is undergoing a strong growth process and Denmark is one of our strategic growth areas.

If you have an entrepreneurial mindset, enjoy taking on responsibility and want to play an active role in shaping a modern working environment, then you've come to the right place!

We are looking for an experienced full-time **employee for our Construction Operations Management department (m/f/d)** as soon as possible.

### This is what you can expect from us:

- **Responsibility & variety:** An exciting role with creative freedom in a dynamic company with a real winner's mentality.
- **Attractive framework conditions:** permanent employment in a modern, international company.
- **A work culture that inspires:** open communication through our own employee app, flat hierarchies and collegial cooperation at eye level paired with regular company events.
- **Top equipment & fair remuneration:** company car and smartphone for our colleagues in the field, attractive salary and company health insurance.
- **Further development included:** Professional and personal development as well as the option of working on exciting and future-oriented projects throughout Germany.

### What you can expect from us:

- Supervision of contract and claim management.
- Digitization and optimization of construction processes, measurement data and documentation.
- Preparation of supplements in close coordination with the project management.
- Creation and ongoing monitoring of the costing-based construction schedules.
- Accompanying cost calculations as well as analyzing and improving profitability.

### What you bring with you:

- Degree in civil engineering or comparable qualification with specialization in construction operations.
- Sound knowledge of construction law, contract and claim management as
