Fitters for technical insulation, ventilation technology and fire protection (m/f/d)

With over 230 permanent employees and more than 220 freelancers, TLC has been a reliable partner in technical building services for many years. Our services include planning, production, installation and maintenance – with high German quality for demanding construction projects throughout Europe.

As part of our continuous growth, we are looking for motivated **fitters (m/f/d)** to join our teams in the areas of **technical insulation, ventilation technology and passive fire protection** as soon as possible.

Locations: Klipphausen, Hamburg, Leuna, Jena, Berlin, Frankenthal

This is what you can expect from us:

- **Responsibility & variety:** An exciting role with creative freedom in a dynamic company with a real winner's mentality.
- **Attractive framework conditions:** permanent employment in a modern, international company.
- **A work culture that inspires:** open communication through our own employee app, flat hierarchies and collegial cooperation at eye level paired with regular company events.
- **Top equipment & fair remuneration:** company car and smartphone for our colleagues in the field, attractive salary and company health insurance.
- **Further development included:** Professional and personal development as well as the option of working on exciting and future-oriented projects throughout Germany.

What you can expect from us:

- They professionally install insulation materials for cold, heat and noise protection on pipes, containers or ventilation components.
- They carry out installation work in the field of preventive fire protection, e.g. by covering pipe penetrations or installing fire protection sleeves.
- They install and maintain ventilation and cooling systems, install ventilation ducts and carry out associated connection work according to technical specifications.
- In our sheet metal prefabrication department, you will process thin sheets manually or by machine. You will carry out precise work steps such as cutting, punching, bending, folding and rounding.
- They work on the basis of technical drawings or sketches and ensure the precise implementation of the specified requirements.
- Depending on the assignment, you will also be responsible for preparing and cutting materials on the basis of project documents.

What you bring with you:

- Ideally, you have completed training in a trade or technical field, e.g. as an insulation specialist, plant mechanic, sheet metal worker or metal worker.

Building trade

Job Location

An der Novisol 2, 01665
Klipphausen, Klipphausen,
Sachsen, Deutschland

- We also welcome career changers with manual skills and a willingness to learn.
- Initial practical experience in technical insulation, ventilation technology, metalworking or fire protection is an advantage, but not a mandatory requirement.
- You work reliably, carefully and with a high sense of responsibility – whether as part of a team or independently.
- For nationwide assignments, you must be willing to carry out assembly work and ideally have a class B driving license.
- Good written and spoken German and ideally a Slavic language such as Polish, Slovakian or Bosnian round off your profile.
