Practical instructor (m/f/d) in the field of industrial insulation – Klipphausen

With 230 permanent employees and over 220 freelancers, we have been supporting our customers for many years in the planning, manufacture, installation and maintenance of building equipment and supplying solutions of high German quality for construction projects throughout Europe.

TLC is undergoing a strong growth process and Denmark is one of our strategic growth areas. To strengthen our team and to specifically promote young talent, we are looking for a committed **practical instructor (m/f/d)** with experience in the field of **industrial insulation**.

Location: Klipphausen

This is what you can expect from us:

- **Responsibility & variety:** An exciting role with creative freedom in a dynamic company with a real winner's mentality.
- **Attractive framework conditions:** permanent employment in a modern, international company.
- **A work culture that inspires:** open communication through our own employee app, flat hierarchies and collegial cooperation at eye level paired with regular company events.
- **Top equipment & fair remuneration:** company car and smartphone for our colleagues in the field, attractive salary and company health insurance.
- **Further development included:** Professional and personal development as well as the option of working on exciting and future-oriented projects throughout Germany.

What you can expect from us:

- They supervise trainees in their day-to-day work and teach them all relevant skills and techniques in the field of technical insulation – from material processing to professional insulation.
- They design and organize targeted instruction sequences in accordance with the training framework plan and ensure a meaningful link between theory and practice.
- They monitor the progress of the training, provide regular constructive feedback and carry out assessments in order to specifically promote the development of the trainees.
- They are in close contact with vocational schools, training officers and other partners to ensure a smooth and coordinated training process.
- You actively contribute your experience to the further development of our training concept and support trainees specifically in preparing for practical examinations.

What you bring with you:

- At best, you have successfully completed training as an industrial insulator,
