Project Manager for Technical Insulation (m/f/d) – Denmark

With 230 permanent employees and over 220 freelancers, we have been supporting our customers for many years in the planning, manufacture, installation and maintenance of building equipment and supplying solutions of high German quality for construction projects throughout Europe.

TLC is undergoing a strong growth process and Denmark is one of our strategic growth areas. We are looking for a dedicated project manager to join our team in the field of technical insulation. With us, you will have the opportunity to play a key role in major construction projects in the areas of insulation, façade cladding, ventilation duct construction and passive fire protection.

As a project manager, you will be jointly responsible for driving our construction projects forward and coordinating them, taking into account deadlines, desired quality standards, working environment and safety. You will lead a team of 10-15 insulators and fitters, and your day-to-day work will be characterized by responsibility and variety.

We are looking for an experienced full-time **Project Manager for the Technical Insulation department (m/f/d)** to start as soon as possible.

Location: Denmark

This is what you can expect from us:

- **Responsibility & variety:** An exciting role with creative freedom in a dynamic company with a real winner's mentality.
- **Attractive framework conditions:** permanent employment in a modern, international company.
- **A work culture that inspires:** open communication through our own employee app, flat hierarchies and collegial cooperation at eye level paired with regular company events.
- **Top equipment & fair remuneration:** company car and smartphone for our colleagues in the field, attractive salary and company health insurance.
- **Further development included:** Professional and personal development as well as the option of working on exciting and future-oriented projects throughout Germany.

What you can expect from us:

- Project planning and costing, including capacity and deployment planning for assembly personnel and subcontractors. In addition, preparation of quotations, order processing and invoicing
- Technical and commercial project management, including the management of installation personnel and any subcontractors and ensuring compliance with deadlines, tasks, quality targets and budget. Coordination of material requirements and logistics in collaboration with the site manager
- Ensuring order and safety in accordance with health and safety measures

Hiring organization

TLC Umwelttechnik GmbH

Employment Type

Full-time

Beginning of employment

as of now

Duration of employment

unlimited

Industry

Building trade

Job Location

Denmark

on construction sites, compliance with health and safety regulations and coordination of vacation planning

- Training, guidance, evaluation and development of technical staff in collaboration with the site manager
- Continuous monitoring and improvement of quality and productivity, ensuring good communication and support for clients, engineers and site managers

What you bring with you:

- Several years of experience as a project manager in the construction industry and several years of experience in installation – in particular of technical insulation, preferably sheet metal sheathing, ventilation and fire protection
- Service-oriented, reliable mentality and the mindset to motivate yourself and your employees
- Responsible, quality-oriented, loyal, honest and winning personality
- Willingness to travel to current construction projects in Denmark, an EU work permit and a class B driver's license
- Language skills in at least one Scandinavian language and English (German is a plus, but not a requirement)

Fancy a change?
