Site manager for the insulation department (m/f/d) – Denmark

With 230 permanent employees and over 220 freelancers, we have been supporting our customers for many years in the planning, manufacture, installation and maintenance of building equipment and supplying solutions of high German quality for construction projects throughout Europe.

TLC is undergoing a strong growth process and Denmark is one of our strategic growth areas. We are looking for a dedicated Site Manager (m/f/d) to join our team in the field of insulation. With us, you will have the opportunity to play a key role in large construction projects in the areas of insulation, façade cladding, ventilation duct construction and passive fire protection.

As a site manager (m/f/d), you will be jointly responsible for driving our construction projects forward and coordinating them, taking into account deadlines, desired quality standards, working environment and safety. You will lead a team of 10-15 insulators and fitters, and your day-to-day work will be characterized by responsibility and variety.

We are looking for an experienced **site manager for the insulation department (m/f/d)** to start as soon as possible.

Location: Denmark

This is what you can expect from us:

- **Responsibility & variety:** An exciting role with creative freedom in a dynamic company with a real winner's mentality.
- **Attractive framework conditions:** permanent employment in a modern, international company.
- **A work culture that inspires:** open communication through our own employee app, flat hierarchies and collegial cooperation at eye level paired with regular company events.
- **Top equipment & fair remuneration:** company car and smartphone for our colleagues in the field, attractive salary and company health insurance.
- **Further development included:** Professional and personal development as well as the option of working on exciting and future-oriented projects throughout Germany.

What you can expect from us:

- Project and schedule coordination, order processing and material planning, invoicing and financial responsibility as well as daily overview of the assembly personnel
- Ensuring order and safety on the construction sites, compliance with health and safety regulations and coordination of vacation planning
- Education, training, evaluation and development of technical staff in collaboration with the project manager
- Continuous monitoring and improvement of quality and productivity as well
